EXPERIENCE

Esconite Solutions / UI Designer

Apr 2017 - Present

- Independently designed and prototyped Android app that helps customers to order foods from the restaurant table using mobile app.
- Coordinated with the Product Manager and Front-End Developer in the product development stage.
- I led the redesign of the mobile shopping experience as well as the entire shopping cart workflow.
- Collaborated with developer teams & managed a wide variety UI design for startups and academic institutions.

AB Innovative Software / UI Designer

Mar 2015 – Feb 2017

- Create and apply design strategies across branding and product design.
- Designed and implemented an internal website showcasing projects/events for the intern program.
- Wireframed and prototyped the information architecture following visual style guidelines.
- Worked on HTML/CSS to build product promotion website using PHP and JavaScript.
- Designed the website from scratch, landing pages, interactive web articles.
